President's report A.K.A.

The Thomson Tribune

Happy December Legends!

So here we are, the end of 2025 and the 45th year of AMAC. Wow. Both blow my mind, first with it coming on to 2026...where does the time go? It seems like it was 2015 just a little while ago. They say time goes faster as you get older, and I'm really starting to feel that! However, 45 years of AMAC is something we CAN celebrate, and have done so all year long! As we just hosted our annual AGM at the Brewhouse last night, there is only one brunch remaining until 2025 is all in the books, and we start on the 46th chapter! Speaking of the AGM, it was a great success, and it looked like everyone had a great time. Amanda did an amazing job on the decorations, gifts, lights, cookies, snackies, and the slide show – as she always does. Not sure how she can top that, but I know she will try! Congratulations to the Chase the Ace winners, those hand carved monopoly pieces are going to be the envy piece of whatever garage they will be in!

As it was our AGM, we completed our elections, even though 21 out of 22 executive members were standing in their role for 2026. Many thanks to Chris Cook for your commitment during the last year.

Chris held the position of Director at Large but has stepped down. We received two nominations from the floor for the one open position, but rather than having a vote, we added an additional director at large role for a total of 6, and now 23 executive members! Please welcome George Porter and Lance Tschritter to the AMAC executive, and we look forward to the energy and perspective that they will bring! Many thanks once again to Jim for conducting the election process, and to all the members of the executive team that chose to stay another term! See you all in January!

I have written this newsletter for quite some time now, and in preparation, looked back at some of the other ones I have done. Man, what a lot of complaining about the snow, cold, and darkness that occurs this time of the year – sorry folks! However, after doing the miserable drive to the office this morning, I can see why I do complain, haha. Probably would not have been too bad if I wasn't up so late celebrating with you all!

I did reread my version of Twas the Night Before Christmas that was published in the November 2017 newsletter and had a pretty good chuckle. It took a lot of beer to get

that out of my noggin, and almost none of it is still true today. Shannon doesn't have her 2015 Mustang any longer, but the Roush is still around, and yes, it's still faster than Martin's Shelby! Joel and Matt are no longer at the Mustang Shop, but our good friend Jim is! But yeah, they are not open late on Thursday anymore. See the next page for this blast from the past!

So, as we head into the holiday season, I want to wish everyone a Merry Christmas and Happy New Year. Enjoy the time with your friends and family, the hot totties, the twinkling lights, and hopefully the opportunity to slow down a bit and relax. For those of you that have projects going on in the garage, now is not the time to slow down, haha! Get out there and get them ready for next year! While my project that I've been writing about all year is almost done, I'm eyeing another that will commence very soon after the first one is completed! Wish me luck, but this one should not require quite as much beer as the last one task, however, I'm certain I could convince myself to stretch it out a little further!

Stay warm Legends!

Scott

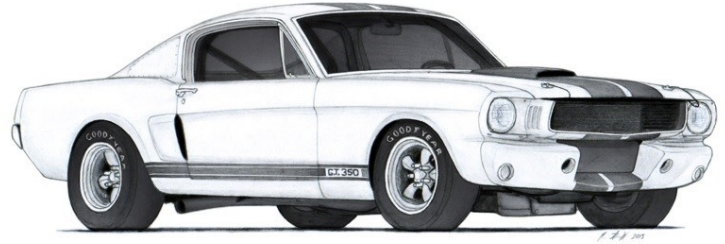

The Thomson Tribune, continued

Twas the night before Christmas, when in the Thomson house,
Not a V-8 was burbling, not even the Roush;
The Stangs were stored in the garage with care, In hopes that Springtime would soon be there;
Their tanks are topped up with gas unlead, While visions of ignition danced in each cylinder head;
Mama's '15, and the others covered in wrap, Had been settled for a long winter season's nap;
When out in the garage arose such a clatter, I sprang from the bed to see what was the matter;
Away to the door I flew like a flash, Tore open the handle, to look at my stash;
The switch was hit to allow the fluorescents to glow, Which gave a lustre of mid-day to my beloved FoMoCo;
When, what to my wandering eye should appear, But Eric from the Mustang Shop, and a huge case of beer;
Plus tools including a driver from Snap-On, so sick, I knew in a moment it is MY version of St Nick;
More rapid than beagles his helpers they came, And he whistled, and shouted, and called them by name:
Now Joel, now Matt, let's get to some fixin, Lowering springs, forced induction! So incredibly Vixen;
To the top of the lift, went the coolest car of them all; now install, install, install them all!
As Mustangs must have mods before they fly, Money is an obstacle, which you cannot deny;
So up onto the lift his beagles they flew, With a sack full of mods - and St. Eric too:
With me in the corner, I sat on the stool, I heard the twisting and clicking of each little tool;
As I turned my head, Eric was all profound, And down the lift he came in a single bound;
He was not covered in grease from head to foot, As my cars are spotless and devoid of soot;
A bundle of take-off parts was on his back, This car now leads at the front of the pack;
These mods - how they sparkled! So very cherry, All sleek, especially up close, we are so merry;
Eric, his little brow was drawn up like a bow, How can we now leave the others boring as snow;
Back at it he went, wrench held tight in his teeth, Up, down, back all over including underneath;
A torque curve so broad, cars shook like they were made of jelly, You can be sure they are faster than Martins Shelby;
Completed they are, putting the tools back on the shelf, So excited, I could hardly contain myself;
A wink of his eye, filled me with dread, This night was ending, and I hung my head;
He spoke not a word, as he had finished his work, What had I done to deserve this awesome perk;
And away into the night went the pro's, Leaving nothing but memories to disclose;
I sprang upright, as it hit me like a missile, A dream it had been, so incredibly visceral;
But I heard him exclaim, although he was out of sight, The Mustang Shop is open late every Thursday night! Merry Christmas to All and to All a Good Night—**Scott**

Last Years' Display

Wright Restyling provides solutions to anything inside the door handles of any vehicle. We design and install Katzkin leather interiors with custom embroidered logos. We design, install and tune small to large audio systems. Integration to factory systems has become very important in today's tech rich vehicles. Our team is able to retain key factory systems, remove factory audio filters and provide a clean unfiltered baseline for audio upgrades. We can custom build sub boxes, consoles, door panels and speaker panels. With these services blended together, Wright Restyling can upgrade an entire interior with any of the desired comfort features available.

Feature upgrades available: Heated / cooled seats, remote starters, GPS tracking, laser and radar defence, interior lighting, blind spot, backup cameras, parking sensors, 3D printed custom panels, CNC aluminum and ACM.

The final show of the season in High River is always popular with AMAC. It is a very early start, but we filled Mustang Alley quite nicely.

Sponsor Spotlight

Gary and I took our California Special to Dale Adams last summer as she was just not running well and did not seem to have her usual pick up! Derek and the team spent some time with her and got her done in time for us to take the trip to Nelson and to Radium. She now runs like a dream! Kudos to the team at Dale Adams!!
